PoleLED

Your message visible at all times!

Do you want to light your flagpoles so that your message is visible 24/7? You can find such lighting at Limeta, the flagpole specialist.

Our range includes a variety of high-grade, energy-efficient LED lighting solutions which will enhance your visibility and name recognition. This brochure will give you a clear overview of our lighting solutions for your flags, advertising messages and façades.

View our website www.limeta.nl/verlichting or phone us on +31 (0)172 – 613959

Flagpole lighting

Bannervision

High-grade LED technology in a vandalism-proof lighting fixture lights up your flagpole and banner from below, giving your logo or text much added attention value. This lighting fixture can be adapted to any flagpole and is extremely well-suited to flagpoles with a hoistable lighting support bracket or an anti-theft system, or to rotating flagpoles.

Suitable for flagpoles up to 177 mm diameter

€ 950.00

Bannervision

PoleLed (Extended)

A lighting fixture consisting of a circle of LEDs that is mounted on the flagpole immediately below the flag. This makes your flag visible not only by day, but 24/7.

Suitable for flagpoles up to 114 mm diameter
€ 375.00

Suitable for flagpoles up to 145 mm diameter
€ 991.00

Diluvio

Advertising and façade lighting

Amplio

Linear lighting that can be interconnected and that has been specially developed for lighting banners, frames, logos and buildings.

In black or silver 30 cm

€ 358.00

In black or silver 60 cm

€ 564.00

Diluvio

A durable lighting fixture that ensures your banner, advertising message, building or vehicle fleet is lit in an attractive and energy-efficient manner.

In black

€ 770.00

FrameLed

Unique linear lighting made specially to light façade banners and tubular frames. The FrameLed's design is also in the shape of a frame, which makes the fixture virtually invisible.

Per meter

€ 128.00

Rotterdam City Hall illuminated by Amplio, Diluvio and PoleLed lighting.
